## Education

---

### Fanshawe College

### Post-Graduation in Mobile Application Development

2023 – Present

- Striving for expertise in iOS, Android app dev, UX design, and emerging mobile tech.
- Involved in diverse projects, applying varied skills to create user-friendly mobile apps.

### Veer Narmad South Gujarat University

### Bachelor's Degree in Computer Application

2019 – 2022

- Graduated with distinction and a cumulative CGPA of 7.9.

## Technical Skills

---

Languages: React Native | Java | Swift | Kotlin | JavaScript | SQL | Firebase | HTML5/CSS3

Technologies: Redux | Express.js | ES6+ | RESTful APIs | Git | TypeScript | React.js | Vue.js | Next.js | Node.js | Docker

## Professional Experience

---

### React Native Developer | Crest Infotech | 2022 – 2023

- Implemented Redux for **state management**, enhancing application stability and user experience.
- Conducted thorough testing, resulting in a **20% reduction in post-release bugs** and increased overall app performance.
- Integrated Firebase for real-time database functionality, contributing to a **30% reduction in load times**.
- Designed and implemented various React Native components, such as **tab bars, map views, and push notifications**.
- Developed **reusable components** and libraries, optimizing code efficiency for future scalability.

### Front-End Developer | Capital Numbers | 2021 -2022

- Actively participated in designing responsive web applications, resulting in a **20% increase in user engagement**.
- Applied expert knowledge of **React.js, Next.js, and Vue.js** to create engaging user interfaces, **contributing to a 25% boost in user satisfaction**.
- **Thorough testing cut post-release bugs by 30%**, ensuring a better user experience.
- Assessed code quality, implementing best practices that led to a **20% improvement in overall code efficiency**.

## Project

---

### Ridbuter App | REACT.js, React Native | Github

- Ridbuter app streamlines ride management, offering easy sign-in, requests, and booking. Simplifies ride searches for a user-friendly experience.

### Weather App | Swift | Github

- Precisely designed iOS app for real-time weather updates, created with Swift.

### Shopping list App | Swift | Github

- Swift-built Shopping List App, an advanced mobile tool, serves users seeking a comprehensive platform for detailed shopping list management, including item info, prices, and usernames.

### Personal Portfolio | Github | Live ([pranavgeek.dev](https://pranavgeek.dev))

- Dynamic and responsive personal portfolio using **React JS, TypeScript, and Next.js**.
