Pranav Gotawala

Summary

Full-stack developer with 2+ years of experience in mobile and backend development. Skilled in building performant, production-ready mobile apps using **React Native, SwiftUI, TypeScript, Redux, Zustand, Recoil,** and **GraphQL**. Recently submitted **Space**, a full-featured e-commerce marketplace app, to the Apple App Store—integrating payments, messaging, role switching, and admin workflows. Experienced in integrating **REST APIs**, implementing **OAuth SSO**, and driving high-quality code through **unit and end-to-end testing**. Passionate about scalable architecture, intuitive UX, and Agile collaboration.

Technical Skills

Languages: JavaScript, TypeScript, Swift, Python, C

Frameworks & Libraries: React Native, .NET, Node.js, Express.js, Redux, Zustand, Recoil, GraphQL (Apollo)

Mobile Development: SDK Integration, REST APIs, OAuth, Jest, Detox

Tools & Platforms: Git, Docker, Figma, Jira, Shortcut, Firebase

Databases: PostgreSQL, MySQL, MongoDB, Firestore, DynamoDB

Cloud: AWS (Lambda, S3, API Gateway, SNS, SQS)

Agile Methodologies: Scrum, CI/CD

Experience

Krachi's Space Technologies

February 2024 – Present

Mobile Developer Internship (Remote)

Toronto, Ontario, Canada

- Designed and submitted **Space App**, a production-ready React Native e-commerce app with Apple Store review pending, **built with payments, messaging, role switching, and admin workflows**.
- Developed and optimized** React Native applications, leveraging **Redux, Zustand,** and **Recoil** for better state management, increasing app performance by 25%.
- Enhanced scalability** by **integrating TypeScript**, ensuring type safety and reducing development time by 20%.
- Implemented unit and end-to-end testing** using **Jest, React Native Testing Library,** and **Detox**, reducing post-launch bugs by 30%.
- Collaborated with back-end teams** to **design and integrate RESTful APIs** using **Node.js** with **Express** and **NestJS**, improving app reliability and data consistency.
- Utilized GraphQL (Apollo)** to optimize data fetching strategies, reducing app load times by 20%.
- Designed and maintained SQL** (PostgreSQL, MySQL) and NoSQL (MongoDB, Firestore) databases, ensuring robust data storage solutions and quick retrieval times for mobile applications.
- Troubleshoot and resolved production issues** and bugs in live applications, resulting in a 15% decrease in app crash rates.
- Delivered App Store-ready build ahead of schedule**, demonstrating full product cycle ownership.

Weingenious Technocrats

August 2023 - December 2023

React Native Developer (Remote)

London, Ontario, Canada

- Reduced application crashes by 20% and improved user retention by 15%** through Redux refactoring.
- Automated testing workflows with Detox and Jest**, cutting manual testing time by 30%.
- Implemented push notifications** using Firebase, increasing user engagement by 20%.
- Integrated RESTful APIs efficiently**, reducing API-related issues by 15% and enhancing app stability.
- Collaborated with designers and backend teams to **improve API response times, reducing app load time by 25%.**
- Enhanced app security by **integrating OAuth authentication, strengthening user data protection.**
- Integrated third-party libraries for maps and payments**, expanding app functionality.
- Collaborated with UI/UX designers** to refine mobile app interfaces, boosting user satisfaction.

Education

Fanshawe College <i>Post-Graduation in Mobile Application Development</i> • Relevant Coursework: Mobile App Dev Fundamentals, iOS Dev (Swift), Android Dev (Java/Kotlin), UI/UX Design, App Testing, Cross-Platform Dev (React Native), Security, Database Management, Deployment, Analytics.	<i>May 2023 - November 2024</i> <i>London, Ontario, Canada</i>
Veer Narmad South Gujarat University <i>Bachelor's Degree in Computer Application</i> • Relevant Coursework: Programming (C, C++, Java, Python), Data Structures, Django, Databases, Networks, Postgres & MySQL, OS, Web Dev, OOP, Computer Architecture, Mobile Dev, Network Security, ASP.NET.	<i>August 2019 - April 2022</i> <i>Surat, Gujarat, India</i>

Projects

Space: E-commerce Marketplace App <i>React Native, Node.js, PostgreSQL, Moneris, Stripe</i> GitHub • Built and submitted Space, a mobile e-commerce app enabling creators, influencers, and buyers to transact, message, and collaborate. • Integrated Moneris Checkout and Stripe Payouts, enabling seamless financial transactions and reducing payment failures by 95%. • Engineered dynamic role switching (Buyer/Seller/Influencer), improving user onboarding flow and increasing retention by 18%. • Optimized API architecture and PostgreSQL schema, reducing query response times by 30% and improving app load performance. • Integrated AWS for robust media storage, efficient delivery, and high scalability. • Implemented in-app chat system with role-based filters, increasing average user session time by 22%. • Launched subscription tiers and access control, supporting 4 monetization plans and generating over \$1,500 in test revenue. • Designed real-time dashboards for creators/influencers to track campaign analytics, revenue, and engagement, improving decision-making.	<i>April 2025</i>
Ridbuter App: A Mobile Version <i>React Native, Firebase</i> GitHub • Optimized ride management workflows, reducing user sign-in time by 25% for a smoother experience. • Designed and implemented a responsive UI, leading to a 30% boost in user engagement. • Enhanced ride search functionality, cutting search times by 20% and improving user satisfaction. • Integrated Firebase for real-time data sync, ensuring seamless trip updates and improved reliability. • Increased user retention by 15% through push notifications and AI-powered ride recommendations.	<i>December 2023</i>

Customer & Technical Support Experience

• Provided informal tech support to peers and family, resolving issues with iPhones, iPads, Macs, and Apple software. • Assisted classmates with app debugging and troubleshooting, strengthening problem-solving skills. • Passionate about educating users on Apple products, software features, and repair options.
