Summary

Detail-oriented and tech-savvy professional with expertise in **Apple ecosystem technologies**, troubleshooting, and customer service. Experienced in diagnosing and resolving **hardware and software issues**, educating users on Apple products, and providing **exceptional customer support**. Adept at working in **fast-paced, team-oriented environments** and passionate about helping customers get the most out of their Apple devices.

Education

- | | |
|--|---|
| Fanshawe College
<i>Post-Graduation in Mobile Application Development</i> | May 2023 - November 2024
London, Ontario, Canada |
| <ul style="list-style-type: none">• Relevant Coursework: Mobile App Dev Fundamentals, iOS Dev (Swift), Android Dev (Java/Kotlin), UI/UX Design, App Testing, Cross-Platform Dev (React Native), Security, Database Management, Deployment, Analytics. | |
| Veer Narmad South Gujarat University
<i>Bachelor's Degree in Computer Application</i> | August 2019 - April 2022
Surat, Gujarat, India |
| <ul style="list-style-type: none">• Relevant Coursework: Programming (C, C++, Java, Python), Data Structures, Django, Databases, Networks, Postgres & MySQL, OS, Web Dev, OOP, Computer Architecture, Mobile Dev, Network Security, ASP.NET. | |

Experience

- | | |
|---|---|
| Krachi's Space Technologies
<i>Mobile Developer Internship (Remote)</i> | February 2025 - Present
Toronto, Ontario, Canada |
| <ul style="list-style-type: none">• Developed and optimized React Native applications, leveraging Redux, Zustand, and Recoil for better state management, increasing app performance by 25%.• Enhanced scalability by integrating TypeScript, ensuring type safety and reducing development time by 20%.• Implemented unit and end-to-end testing using Jest, React Native Testing Library, and Detox, reducing post-launch bugs by 30%.• Collaborated with back-end teams to design and integrate RESTful APIs using Node.js with Express and NestJS, improving app reliability and data consistency.• Utilized GraphQL (Apollo) to optimize data fetching strategies, reducing app load times by 20%.• Designed and maintained SQL (PostgreSQL, MySQL) and NoSQL (MongoDB, Firestore) databases, ensuring robust data storage solutions and quick retrieval times for mobile applications.• Troubleshooted and resolved production issues and bugs in live applications, resulting in a 15% decrease in app crash rates. | |
| Weingenious Technocrats
<i>React Native Developer (Remote)</i> | May 2024 - August 2024
London, Ontario, Canada |
| <ul style="list-style-type: none">• Reduced application crashes by 20% and improved user retention by 15% through Redux refactoring.• Automated testing workflows with Detox and Jest, cutting manual testing time by 30%.• Implemented push notifications using Firebase, increasing user engagement by 20%.• Integrated RESTful APIs efficiently, reducing API-related issues by 15% and enhancing app stability.• Collaborated with designers and backend teams to improve API response times, reducing app load time by 25%.• Enhanced app security by integrating OAuth authentication, strengthening user data protection.• Integrated third-party libraries for maps and payments, expanding app functionality.• Collaborated with UI/UX designers to refine mobile app interfaces, boosting user satisfaction. | |

Technical Skills

Languages: React Native, Swift, JavaScript, HTML5, CSS3, TypeScript, PostgreSQL, MySQL, Firebase, Node.js
State Management: Redux, Zustand, Recoil
Testing: Jest, React Native Testing Library, Detox
Technologies: React.js, Vue.js, Next.js, Node.js, Redux, Express.js, NestJS, GraphQL (Apollo), Django, RESTful APIs, Git, Docker
Databases: SQL (PostgreSQL, MySQL), NoSQL (MongoDB, Firestore)
Soft Skills: Strong communication, problem-solving, customer service, teamwork, adaptability

Projects

- Ridbuter App: A ride-sharing web application** | *React.js, Firebase* | [GitHub](#) November 2023 | London, Ontario

 - **Streamlined ride management system**, reducing user sign-in time by **25%**.
 - **Implemented a responsive design**, resulting in a **30% increase** in user engagement.
 - **Simplified ride searches**, improving user satisfaction and reducing search time by **20%**.
 - **Integrated Firebase** for real-time data synchronization, enhancing the overall user experience.
 - **Achieved a 15% increase in user retention** through push notifications and personalized ride recommendations.
- Ridbuter App: A Mobile Version** | *React Native, Firebase* | [GitHub](#) December 2023 | London, Ontario

 - **Optimized ride management workflows**, reducing user sign-in time by 25% for a smoother experience.
 - **Designed and implemented a responsive UI**, leading to a **30% boost in user engagement**.
 - **Enhanced ride search functionality**, cutting search times by **20%** and improving user satisfaction.
 - **Integrated Firebase for real-time data sync**, ensuring seamless trip updates and improved reliability.
 - **Increased user retention by 15%** through **push notifications and AI-powered ride recommendations**.

Customer & Technical Support Experience

- Provided **informal tech support** to peers and family, resolving issues with **iPhones, iPads, Macs, and Apple software**.
- Assisted classmates with **app debugging and troubleshooting**, strengthening problem-solving skills.
- Passionate about educating users on **Apple products, software features, and repair options**.

Certificates

- **CompTIA A+** February, 2025
[Certificate Link](#)
- **Excel Basics for Data Analysis** September, 2023
[Certificate Link](#)

Additional Information

Availability: Flexible to **work nights, weekends, and holidays** based on business needs.
Portfolio: Demonstrates expertise in **building responsive, user-friendly mobile and web applications**, accessible at [Portfolio](#).
Soft Skills: Strong **problem-solving abilities, communication, customer service**, and teamwork in fast-paced environments.
Customer Focus: Passionate about **helping users maximize their Apple products** through education and troubleshooting.
